"Tauri" by Hazel

At our last session at the Goods Shed, we had some lovely photos of Tauri for our Show & Tell segment. Robert created this unusual creative composition of a wooden cartwheel illuminated with light source from the fireplace. (See above) Also, we were able to watch great results from members' usbs. Well done. Our challenges are certainly challenging. Bob then took us through some interesting tutorials via YouTube. These are a great learning tool to refresh camera techniques & to learn new skills. They are also an inspirational way to glean ideas for subjects & locations. We spent a very fruitful & informative afternoon.

CHALLENGE for next session. 'SPRING'. Use your imagination. Let the creative juices flow and see what you can come up with. Take your camera with you wherever you go and be prepared to capture whatever photographic opportunities come your way.

Jenny McDonald joined us for the first time this session, so a big welcome Jenny. Thank you for your input.

Bass Coast Camera Club is a programme of the Bass Coast Artists' Society. Our home base is the Goods Shed, Wonthaggi. Meetings are on the 3rd Saturday of the month 1.30pm – 4pm.

OUR NEXT SESSION IS SAT. 17th SEPT. We will meet at the Goods Shed 1.30pm and determine the exact location and meeting point, before preparing to move to Harmers Haven for a photo shoot. Because there is limited parking, it would be wise to reduce the number of cars. We will spend one hour at Harmers Haven and then return to the Goods Shed for afternoon tea and Show and Tell. At the present time repair work is being carried out at the location but hopefully by the 17th Sept. this should have been completed. If not we can access the beach via Wreck Beach. I will keep you informed closer to the 17th. We will hope that the weather is kind to us.
