

BASS COAST CAMERA CLUB

Saturday, September 16, 2017.

Meeting: Saturday 16th September.

A very cold and rainy Saturday kept the attendance down.

Hazel attended and on behalf of all the members we presented her with a rose for her garden. Hazel, we will be around to photograph all your roses when they have their first flush. Have the tea and cakes ready.

A few points were brought up at this meeting and are set out are here for your information:-

Please submit all photos in A4 size, either on plain paper or photo paper is acceptable. Good quality Kodak photo paper is available Big W for very reasonable prices.

You can submit up to two photos per A4 sheet if you wish.

Every member should come to the meeting with their camera, you never know when we might have an impromptu photoshoot.

Tutorial by Bob Tyler.

Bob's subject this month was, Depth of Field. Bob addressed the varying ways of achieving a depth of field in your photos or conversely having no depth of field. Bob also covered where depth of field was preferable over a lack of depth of field and the best devices in your camera to achieve your aim. An interesting topic that was food for thought when considering the constructing of your photos. Try to apply it to this month's challenge.

Show and Tell.

The challenge set down last month was, "fill the frame " using Marco, telephoto or photoshop. Some interesting work was presented and duly put up on the wall for the all ooohs and aaahs.

Next Meeting and Challenge

Next meeting will Saturday 21st of October at 1.30pm.

Octobers challenge is Streetscapes and now the weather is finally giving us a break I anticipate some interesting work. A field day might be the go but where and what will be a surprise.

Regards

Len S. Cap
