

BASS COAST CAMERA CLUB NEWSLETTER JULY/AUGUST 2014

“Female Blue Wren” photo by Heather Gardner

“Dragonfly” iPad photo by Chris Upton

iPad photo by Hazel Zander

The photos presented at this month’s Show & Tell were quite simply, amazing. As always, there was a diverse range of subjects covering the challenge “Depth of Field”. This was a difficult task. ie. to create a sharp focus on the subject with a blurred background. However, everyone obviously put a lot of thought & effort into this task. I also believe that some members have managed to train their subjects, animals, birds, insects, to pose for them. Note the 2 photos above. For the first time we have some photos done on iPads with interesting results. We have asked members to define the equipment they have used for future Show & Tell. With the addition of iPads etc. to the list of different types of cameras and photo enhancement computer programs perhaps it would be good policy to indicate the equipment used to produce a creative photograph.

“Macro Photography”. Thank you Shelley, for showing us the techniques of macro photography. We were all particularly fascinated by the performing snail. Also, we were intrigued with the process of capturing a photo of a dripping droplet into water. Members followed Shelley’s demonstration producing photos of small items brought in by member with some interesting results. Look into our Webpage where Shelley will be putting her tutorial on Macro Photography.

Our next session is on Sat. 16th August, meeting at the Goods Shed 1.30pm. Weather permitting we can then pool cars & drive to the Desal Plant for a photo shoot. We can stay for about an hour then return to the Goods Shed for Show/Tell, & cuppa. NEXT MONTH’S CHALLENGE – Continue with focusing on Depth of Field. Either with the same theme you adopted last month or introduce the macro techniques.

OUR NEXT SESSION SAT.16th AUG. AT THE GOODS SHED. START 1.30PM.

Do you have photos or interesting topics to put onto our Webpage? basscoastcameraclub.org.au
