BC AS Easter Exhibition – Despite fewer entries this year, the Photography Section illustrated the excellent work being achieved by members of the Bass Coast Camera Club as shown by the three fine photos above. Well done everyone. Pending the approval of BCAS the date set for our November Exhibition is Sat. 21st November. It sounds a long way off but I am hoping all members will be contributing to the display at the Goods Shed, so please, put the date in your diaries and start planning ahead.

Members should be putting their initial, signature or logo on their photos; especially ones you intend showing at exhibitions and on line. Get into the habit of doing this. It is your work, so claim it.

Bob gave us a lesson on Light Room. This programme gives very subtle remedies to enhance a photograph. It is amazing what you can achieve. If you are looking to advance your techniques this is the way to go. It looks complicated but with Bob's guidance, it becomes less so. He will continue with Light Room next session so if you have any questions bring them along to the meeting.

BCCC is a programme of the Bass Coast Artists' Society.

At our April session, we discussed the proposal to produce a BCCC 2016 Calendar. The expense to do this is high. The risk of not covering our costs and the risk of not meeting the commitment to sell makes the proposal too difficult. However, have you thought of making your own personalized calendar? You can do this quite easily in Photoshop & Publisher and you then only produce the number you need. We are looking into purchasing a book-binding machine. I hope that we can buy one at a reasonable cost. We will learn more about this in our next session, which is on Sat. May 17th at the Goods Shed, 1.30pm. Give this some thought then perhaps we could have some ready for the November Exhibition
